

PRODUCT COMPONENT

DEFINITION			
<i>Name</i>	AIS Web Accessibility Toolbar (for Internet Explorer)		
<i>Description</i>	<p>The Web Accessibility Toolbar has been developed to aid manual examination of Web pages for a variety of aspects of usability/accessibility. It consists of a range of functions that:</p> <ul style="list-style-type: none"> • Identify components of a Web page; • Facilitate the use of 3rd party online applications; • Simulate user experiences via various window sizes and other options; and • Provide links to references and additional resources. 		
<i>Rationale</i>	Through the use of a testing tool such as this, State of Missouri Web sites can conduct detailed testing of different aspects of their site (link checking, html checking, layout testing, etc.). Couple this with human evaluation testing, and State of Missouri Web sites will be as usable as possible.		
<i>Benefits</i>	<ul style="list-style-type: none"> • Ensures Web site takes a proactive approach to current/future legal requirements; • Broadens market reach through increasing the usability/accessibility of Web site; • Improves services to all users and increase Web site performance; • Increases compatibility with new browsing technologies; • Could improve download time; and • Automatically identifies compliancy or provides a detail listing of the areas of non-compliance.
